

Feature Cultivars for 2009

← **Dublin Elaine** - This is a Choice Cultivar for August and September double blooms. One of the most vigorous and most prolific bloomers in our garden. Reblooms before the primary scapes are finished, providing a reliable 6-8 weeks of bloom.

↑ **Emperor's Choice** - We love the show that EC puts on in August. EC grows in a gorgeous mound with clusters of ruffled, brilliant lemon yellow blooms nestled just at the top of the foliage. Can't be beat!

← **Fooled Me** – This Striking Gold with Clear Red eye is well deserving of the 2005 Stout Silver Medal

Autumn Minaret →
With obvious bloodlines from *H. altissima* this is the tallest daylily we grow, often reaching 7'. Fragrant but it is so tall you may need a stool to enjoy the fragrance

← **Moonlit Masquerade**
Another Outstanding Stout Silver Medal recipient. Blooms June through September.

Condilla →
probably the best double gold we have ever encountered.
