

**Chicago Apache** (Marsh 1981) HM'85 **\$10.00**  
Dormant 27" 5" M Tetraploid  
Burnt scarlet red self, green heart

**Chicago Ruby** (Marsh 1977) HM'84 **\$10.00**  
Semi Ev 27" 6" M Tetraploid  
Chicago Ruby rebloomed in containers at Nancy's  
Red self w green throat, big sturdy & long blooming.

**Chorus Line** (Kirchoff 1981) AM'88, ATG'86, LEP'88  
Dormant 20" 3.5" E Reblooms Diploid  
Round & ruffled pink with a rose band and pronounced  
veins. Nocturnal **\$12.00**

**Condilla** (Grooms 1977) AM'85, HM'82, LAA'91, IMA'84  
Dormant 20" 4.5" M Reblooms Diploid  
**Double** gold ruffled like a carnation, Condilla is probably  
the best double gold we have ever encountered. Mid  
Season bloom starts for us the middle of July and lasts for  
5-6 weeks before reblooming through late August and into  
September. **\$11.00**

**Country Melody** (Klehm 1987) **\$15.00**  
Dormant 30" 5.5" M Tetraploid  
We've seen a trend back to larger and taller pastels – CM  
is going to fit the bill – Lovely pink with a soft yellow  
halo and a yellow throat

**Custard Candy** (Stamile 1989) Stout'99 ATG'96 **\$18.00**  
Dormant 24" 4.25" EM Reblooms Tetraploid  
Soft & pale yellow with maroon eye & gold edge.  
Fabulous plant, excellent budcount, reblooms prolifically,  
foliage and blooms blemish free, clump looks great spring  
to autumn. Not just a pretty face but the whole plant  
deserves the recognition of the Stout Silver Medal

**Dallas Star** (Ferris R 1976) HM'85 **\$11.00**  
Semi Ev 28" 6.5" M Diploid  
Large Star shaped Lavender/Pink blooms with chartreuse  
heart. Excellent performance from a choice cultivar!

**Daring Dilemma** (Salter 1992) HM'97 AM'00 **\$12.00**  
Semi Ev 24" 5" M Reblooms Tetraploid  
One of our personal favorites DD has a gorgeous plum eye  
and edge with a bit of gold highlighting the edge. The pink  
tinged cream background colour provides a perfect canvas  
for the rich darker veining extending all the way to the  
lightly ruffled edge.

**Dauntless** (Stout 1935) SSM 1954 **\$12.00**  
Semi Ev 33" 4" M Diploid  
Here is a Heritage Treasure that will make a valuable  
addition to any collection of historical daylilies.  
Hybridized by the father of the modern Daylily, A. B.  
Stout, and registered in 1935, Dauntless is the only one of  
Stouts cultivars to receive the Stout Silver Medal (named  
after Stout himself). Very wide petaled for a daylily of its  
era, with a few ruffles and a rudimentary but very round  
eyezone, Stout insisted that daylilies needed to add beauty  
to the garden even when they were not in bloom

**Dominic** (Williams J 1984) HM'86 **\$12.00**  
Semi Ev 30" 5.5" EM Tetraploid  
dark red/black self with light yellow throat

**Dublin Elaine** (Joiner 1987) **\$12.00**  
Dormant 32" 5.5" M Reblooms Diploid  
Anyone looking for August bloom needs to consider  
Dublin Elaine. Registered as mid season, we would call it  
Mid-Late in our gardens, starting the middle of July and  
blooming through August into the early part of September.  
A little taller than most, DE will stand out in the Late  
summer garden. This attention getting, warm pink double  
is definitely a contender for the most vigorous and most  
prolific bloomer in a mature clump. DE is both a bud  
builder and a rebloomer that puts up new scapes before the  
primary scapes are finished, resulting in 6-8 weeks of  
bloom. We have long held Enman Joiners doubles in  
extremely high regard - This is a 1<sup>st</sup> choice daylily – see  
photos on cover and Feature Cultivars page.

**Ed Brown** (Salter 1994) SSM 2006, AM'04 **\$30.00**  
Semi Ev 28" 5.5" EM Reblooms Tetraploid  
pink self with gold edge and green throat. Fabulous  
substance, Very Choice. Always draws attention in the  
garden. Blemish free foliage lasts late into Nov/Dec

**Ed Murray** (Grovvatt 1970) N/A until July

**Egyptian Ibis** (Munson 1984) **\$22.00**  
Evergreen 26" 6" M Reblooms Tetraploid  
Simple understated elegance without ruffles. The clear  
Lavender colour seems to be what sells this beauty. We  
have grown this for many years, but have never had  
enough to offer it in our catalogue because garden visitors  
are always begging to take it home with them.

**Elizabeth Salter** (Salter J. 1990) **\$17.00**  
AM'98, HM'95, Stout Silver Medal 2000  
Semi Ev 22" 5.5" M Reblooms Tetraploid  
Super heavy substance, Warm ruffled pink, ES is destined  
to become one of the all time greatest daylilies. If Jeff  
named this after his wife he must have thought it truly  
worthy – so do we – an excellent performer

**Emperor's Choice** (Benz 1991) **\$10.00**  
Dormant 24" 5" M Tetraploid  
We love the show that EC puts on in August. Late  
blooming, starting the end of July or the beginning of  
August, EC grows in a gorgeous mound of clear green  
foliage with clusters of ruffled, brilliant lemon yellow  
blooms nestled just at the top of the foliage.  
Can't be beat for August bloom.

**Emperor's Dragon** (Munson 1988) HM'93 **\$14.00**  
Evergreen 26" 5" M Reblooms Tetraploid  
ED is perhaps Bill Munson's most underrated  
introduction, fabulous performer in our garden. Exquisite  
bright silvery mauve with plum eyezone. Lush, vigorous  
and prolific bloom. Evergreen foliage lasts until winter.
